PREFACE.

THE immense labor and perplexities of canvassing and printing a Second Edition of this work has been accomplished, and the publisher herewith sends it forth to its patrons with the renewed confidence of its giving as much satisfaction as the First, which he is here gratified in being able to say was universal. His capacity and facilities are ample for the compilation and printing of such a work; and, although it has not been sufficiently remunerative, he has an abiding hope, that by making each successive edition as fully correct and reliable as can possibly be done, his fellowcitizens will, in the future, appreciate and encourage him more liberally, so that he may be able to publish an Annual Edition. Although strenuous efforts were made, the number published of the First Edition was only 1,800, the Second, 1,900, requiring very little calculation to see that the profits are anticipatory in future Editions, by establishing a good character for such a publieation

The reader will realize the vast labor performed, from the fact of there being in round numbers, 46,000 names in the work—showing an increase of 10,000 over the last edition, and containing, in printer's technicals, 1,848,000 ems. A large corps of canvassers for names (not for advertisements) required eight weeks, not losing one working day by inclement weather. The Printing was accomplished in 23 working days—an exploit never equaled before in Baltimore.

This work contains, in addition to the Directory proper, a Business Directory and other useful information, needed; but the publisher only professes to publish a *Reliable City Directory*, and that accomplished, should be satisfactory.

The publisher feels it his privilege here to refer to another Directory being published in opposition to his edition. He has not objected to a gentlemanly business competition, but to misrepresentation and falsehood—many citizens having called at the publication office to say that they were imposed upon by the other party, by representing that "Woods had abandoned his publication"—that "it was Woods' Directory they were getting out," &c. Now, all this he resisted, and it is with grateful feelings he announces, that the people of his native city met the imposition with overwhelming indignation.

Woods' Directory is an entire Home publication, and worthy the

patronage of the citizens of Baltimore.

He returns his warmest thanks for the kind feelings manifested towards him in the course of the publication, and for the uniform courtesy extended to his canvassers in giving them the desired information.

PATENT ELASTIC FIRE AND WATER PROOF

# R.()() H

We, the undersigned, are prepared to contract and put on at the shortest notice, W. E. Childs & Co's

#### ELASTIC FIRE AND WATER PROOF CEMENT ROOFING,

It being the only article yet invented that will successfully resist the action of the atmosphere in every climate. It is perfectly Fire and Water Proof, and in point of durability, we believe it is equal, if not superior, to any metallic roofing. We can put it on over old Tin, Tar, Iron or Shingle Roofs, it making no difference how flat or steep the Roof may be. This Roofing is warranted to prove as above represented. We will put it on for \$6 00 per square, (10 feet square.) We will apply it upon Tin and Iron Roofs for \$3 00 per square, being, on account of its durability, the cheapest point that can be used.

We invite all who are building, and also those who wish their roofs repaired to call on the

We invite all who are building, and also those who wish their roofs repaired, to call on the subscribers, No. 117 WEST BALTIMORE STREET, Office of Thomas & James Dixon, and examine samples, and satisfy themselves in regard to the durability and practicability of this

Roofing.

# Trutu Unibergity,

#### 71 LEXINGTON STREET.

This Institution was incorporated by the Legislature of Maryland, in March, 1845, with special reference to the education of those youth who were daily leaving our city to complete their studies, and to give advantages superior to those, which they then possessed. To secure these objects, the Legislature granted a most liberal Charter, with full University powers. "to confer any degree usually conferred in this country or in Europe."

Newton University is under the general supervision of a Board of Regents, appointed by the Legislature, but more directly of a Chancellor, President, and an Executive Council, together with an efficient Corps of Professors and Teachers. The exercises of the Institution are conducted at present in the building which Professor W. J. Waterman formerly occupied as "Philomathean Hall."

The government is strict, but kind and parental. It is conducted on the principle o thinking accurately, doing thoroughly, and training the students to govern themselves.

This Institution is now open for the reception of pupils in the several preparatory and collegiate classes.

This Seminary of learning, instituted for the liberal education of Young Ladies, was created a College proper by the Legislature of Maryland, December session, 1849, with authority to confer degrees, and endowed with all the rights and privileges of the most favored female institutions.

There are two departments in the Institution—the Collegiate Department and the Preparatory Department, with their appropriate branches of learning. The course of study in each is three years, designated by as many different classes.

#### COURSE OF INSTRUCTION.

The course of instruction is intended to develop the intellectual, social and moral faculties; and by imparting a thorough, practical, accomplished and christian education, fit the pupil for the faithful discharge of the responsible duties that await her in life.

Great pains will be taken to promote intellectual advancement, by rendering the acquisition of knowledge pleasant, and by training the pupil to correct habits of thought and

The proper exercise of the social feelings will be encouraged by inculcating whatever belongs to refined manners and dignified courtesy in our intercourse with others; while reading, recitations and expositions from the Bible, will familiarize the mind with the truths of our holy religion, and imbue the heart with right principles of action, and rules for the government of life.

The accommodations for boarders have recently been increased by the crection of an additional story on the main edifice, and a new building, 60 feet long and five stories

high, with chemical hall, painting and reading rooms, bath rooms, &c.
The Institution takes rank with our oldest and best Seminaries, and enjoys a liberal patronage from the city of Baltimore, and from the Middle, Southern and Western States.

#### FACULTY OF INSTRUCTION.

#### PATENT PORTABLE CIRCULAR SAW-MILLS

Which have given so much satisfaction throughout the Union, as also for their STEAM POWERS, of various kinds and sizes, both Stationary and Portable.

Their Engines are built with all the most superior modern improvements, and for their ex-

cellence of arrangement and design, were awarded the highest premium, a gold medal, at the last annual exhibition of the Maryland Mechanics' Institute.

Among their PORTABLE ENGINES is one that was expressly gotten up for Plantation and Farm purposes, and is emphatically a Locomotive or Portable Engine. It is of 10 horse capacity, and for compactness, design and workmanship, efficiency, and case of travel, is uncapacity, and for compactness, design and workmanship, eliciency, and case of travel, is unequalled. The engine, boiler, smoke-stack, governor, and valve, are all mounted on a substantial set of wooden wheels, with tongue attached, ready to hitch a team of horses to, by which it may be drawn to the woods as the power to saw lumber, to the field or barn to thresh out grain or rice, or for ginning cotton, grinding or chopping or crushing corn and cob, or for any other economic purpose on the plantation or farm requiring such power. The smoke-stack is so arranged as to be free from danger of lire, as no sparks are emitted. The governor and valve regulate speed with a degree of nicety never before attained. It can be drawn by four or six horses anywhere where a loaded wagon can be

drawn by four or six horses anywhere where a loaded wagon can be.

As also, for their GRIST MILLS, of various sizes; 110RSE POWERS, of different sizes; one of the latter particularly suited to ginning cotton, and highly approved for such purposes in the South; besides many other labor-saving machines and implements of high celebrity. Since the senior party invented and patented their Portable Circular Saw-mills they have made many valuable improvements, which render them perfect in all their details, and justly entitle them to be considered as among the first labor-saving machines of the age.

A pamphlet and cut containing full descriptions of their Saw-Mills, Engines, and numerous of the residence which we relieve the residence when the part to any gentlemen employing for one by letter.

other machinery, prices, &c., will be sent to any gentleman applying for one by letter.

As they have obtained an extension of their patent, they hereby forewarn all persons from

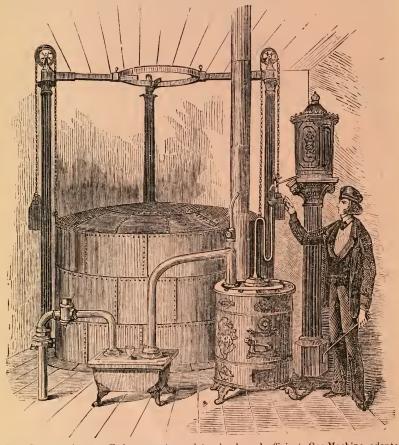

infringing the same.

No assignment of patent right will be legal unless signed by two of the partners.

The following Testimonials from two of the most eminent Pianists in the world, will show how our fustruments are appreciated by those great performers, who have had opportunities for testing the best Pianos of Europe and America:

MR. W. KNARE, Baltimore:

Dear Sir:—I have great pleasure in certifying that I have tried your Square Pianos, and find them equal, if not superior to any in this country. Among their great qualities, which distinguish them, is the evenness of tone, the agreeable and easy touch, and volume of tone. Wishing you all the success you so highly deserve,

I am, Sir, yours, very truly,

Baltimore, Dec. 23, 1856.

S. THALBERG.

To Messrs. WM. KNABE & Co., Baltimore,

Gentlemen:—Permit me to express to you herewith my sineere thanks for the superb Grand and Square Pianos which you have loaned me, and on which I have performed at my concerts.—I cannot but congratulate you upon the immense progress and improvements you continually make on your Pianos, which, in my opinion, rank among the very best in this country.

With hearty wishes for your success and prosperity, which you richly deserve

by your enterprise, energy and activity.

I remain, yours, very truly,

MAURICE STRAKOSCH.

# GROEBL & VOLKMAR'S

PATENTED

# IMPROVED MARQUETRY,

# OR, ORNAMENTAL WOOD FLOORING

BRIRDOGK GRENEMENRO ELKK

The merits of which, as to Elegance and Usefulness at once, have been approved by centuries of trial in Europe, has hardly been introduced into this country. The present invention is an Improvement upon all Marquetry known heretofore, combining every advantage of that with certain new and valuable ones. It is especially adapted to those Public Edifices, in the construction of which honor is done to genuine and life-like art; and to tasteful Private Mansions, where a possibly increased expense does not preclude the consideration of truthfulness, natural beauty and an elegant simplicity.

The Subscribers are prepared to furnish this Flooring in any specified style. The cost will depend upon the intricacy of the design required and the kinds of wood made use of.

This kind of Flooring is particularly suitable for Libraries, Studios, Cabinets, Boudoirs and Drawing Rooms; also, for Steamboat Cabins, and for Masonic and other Lodge Rooms. For further particulars, address
